NEW DREDGES, PUMPS FOR SOVIET CONSTRUCTION PROJECTS

GET SIXTH DRENGE -- Petrozavodsk, Leninskoye Znamya, 19 Aug 52

On 16 August the Kakhovka GES project received its sixth electric suction dredge from the Stalingrad Shipyards. It was shipped in sections from Stalingrad to Zaporozh'ye, where it was assembled before proceeding down the Dnepr to its destination.

COMPLETE ABOVE-PLAN DREDGE -- Moscow, Pravda, 18 Sep 52

The Uglich Machinery Plant, which is turning out suction dredges, bulldozers, and other mechanisms for the great construction projects, has just completed the assembly of an above-plan suction dredge.

BUILD DRY-LAND DREDGE -- Petrozavodsk, Leninskoye Znamya, 19 Aug 52

The Yasinovataya Machine-Building Plant has completed a hydraulic engineering unit, the FG-1, designed for excavating work. A dry-land variation of the suction dredge, it has an hourly productivity of 500 cubic meters of earth.

SPECIAL EQUIPMENT FOR HANDLING CONCRETE -- Moscow, Vechernyaya Moskva, 21 Jul 52

The Moscow Rostokinskiy Machine-Building Plant turned out about 30 concrete pumps, each having an hourly productivity of 20 cubic meters, for the builders of the Volga-Don Canal. In addition to this, the plant turned out 230 vibrator-equipped tubes, designed for feeding concrete into deep foundations.

CONFIDENTIAL

The plant is continuing to fill orders for the great construction projects. It will complete tests this month on an experimental single-cylinder concrete pump of with a productivity of 40 cubic meters per hour. During the same period, the plant is to deliver to the site of the Kuybyshev GES ten vibrator-equipped concrete feeder tubes.

MEET ORDER EARLY -- Yerevan, Kommunist, 21 Aug 52

Γ

In 1952 the Yerevan Small Hydroturbines Plant sent the builders of the Kuybyshev GES a group of 4K-18 centrifugal pumps, meeting the order ahead of time.

PUMPS FOR ARTESIAN WELLS -- Toilisi, Zarya Vostoka, 22 Aug 52

The Kutaisi Gornyak Plant is providing the builders of the Kuybyshev GES with turbopumps for artesian wells.

FARMS TO GET ELECTRIC MODELS -- Moscow, Vechernyaya Moskva, 11 Sep 52

The Moscow Pump Plant imeni Kalinin has run tests on a new electric pump for use at Sovkhozes and kolkhozes, developed with the assistance of the Khar'kov Electrical Machinery Plant. The pumps can move 18 cubic meters of water from a 100-meter-deep well in one hour.
